

I urge the FCC commission to retain current rules limiting media ownership. I do not think changing the rules is a good idea, and, if any rules changes are carried out, Congress should intervene and used legislative means to limit any changes Chairman Powell attempts to enact. He has totally ignored the American public in this, and I think he should be clearly and unequivocally shown, through legislative and citizen action, that we are tired of media monopolies and oligarchies attempting to impose their brand of free market enterprise on the American people. I SAY NO TO MEDIA RULES CHANGES!!
